Press Release

35,000 Say NO to Homeschooling Legislation!

California, April 24, 2018 - The "Preserve Homeschooling in California" petition quickly reached 35,000 signatures! And, people are still signing. Most are homeschoolers, but the written comments show that many are voters who have learned about this legislation and agree that homeschooling is very successful and does not need to be regulated!

Will California's legislators listen? Hundreds of homeschoolers have made reservations and plans and are driving and flying from all over California to speak to the Education Committee on Wednesday, April 25th. Many are bringing their homeschooled children and will be spending the day at the Capitol.

Real California Moms have organized a Facebook event for the day:
<https://www.facebook.com/events/419562811804407/>

And California Homeschool Network is sharing travel information and answering questions at:
CHN APRIL 25TH SACRAMENTO MEET UP

It is expected to be an historic day for California Homeschoolers, and thousands of homeschoolers throughout the country are watching and supporting them.

The petition is at:
