Driver Education Unit-

We intend to offer driver education and driver training as part of our curriculum this school year as allowed by the Department of Education codes.

Attached are the completed, original copies of the driver education/training materials request forms and a copy of our school R-4 form as filed with the State Dept. of Education. Our private school affidavit has been filed online and the copy attached includes an online confirmation number showing receipt by the State Dept. of Education.

Our school is in compliance with all requirements relating to California teaching credentials and criminal record summaries as outlined in the State of California Educational Code, section numbers 33190, 33191, and 44237. However, private schools are prohibited by law from releasing information to any person or agency relating to the criminal record of any employee. Compliance with these educational codes is reflected in our completion of section 5 of the request form.

Thank you very much,
