Your Homeschool. Your Journey. Your Community.

October is an important month for California homeschool families!

Whether you're just beginning your homeschooling journey or have been teaching your children at home for years, California Homeschool Network (CHN) is here to help!

This month, we're highlighting some valuable resources available through CHN and reminding families why supporting homeschooling in California matters.

Private School Affidavit (PSA) Assistance

For California families operating their own home-based private schools, October is the annual PSA filing period.

Not sure where to begin?

Visit the **CHN website** for information and guidance to help you understand the filing process and your responsibilities.

Remember, not every homeschooling option requires families to file their own PSA. The important thing is understanding which option is right for your family.

Why Your CHN Membership Matters

Homeschooling is about freedom, flexibility, and the opportunity to provide an education that meets our children's individual needs.

But those freedoms deserve support.

California Homeschool Network works to support, inform, connect, and advocate for homeschool families throughout our state.

Your membership helps strengthen that work.

When you join CHN, you're doing more than gaining access to helpful resources. You're joining a community of families who believe in preserving and supporting homeschooling opportunities for current and future generations.

And at just \$30 per year, membership is a meaningful way to invest in the future of homeschooling in California.

Whether you're a new homeschooler or a longtime veteran, we invite you to [join us](#).
